This collection of information is required by 37 CFR 1.5. The information is required to obtain or retain a benefit by the public which is to file (and by the USPTO to process) an application. Confidentiality is governed by 35 U.S.C. 122 and 37 CFR 1.11 and 1.14. This collection is estimated to 2 hours to complete, including gathering, preparing, and submitting the completed application form to the USPTO. Time will vary depending upon the individual case. Any comments on the amount of time you require to complete this form and/or suggestions for reducing this burden, should be sent to the Chief Information Officer, U.S. Patent and Trademark Office, U.S. Department of Commerce, P.O. Box 1450, Alexandria, VA 22313-1450. DO NOT SEND FEES OR COMPLETED FORMS TO THIS ADDRESS. SEND TO: Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313-1450.

If you need assistance in completing the form, call 1-800-PTO-9199 and select option 2.

Attorney Docket No. 85714-010501 (010040/0043)

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Applicant: Hyun Lee et al.

Serial No.: 10/622,764 Examiner: Tan V. Mai

Filing Date: July 17, 2003 Group Art Unit: 2193

Title: A VIRTUALLY PARALLEL MULTIPLIER-ACCUMULATOR

RESPONSE TO OFFICE ACTION

Mail Stop Amendments
Commissioner for Patents
PO Box 1450
Alexandria, VA 22313-1450

Sir:

This paper is responsive to an Office Action dated October 13, 2005. As this paper is timely filed no fees are considered due at the present time.

Claims 1-17 are presently pending in the application. Claims 1-5, 8-12 and 15-17 are allowed. Claims 6, 7, 13 and 14 stand rejected under 35 U.S.C. § 112 paragraph 2.

In the rejection the Examiner has taken the position that the claim language of claims 6, 7, 13 and 14 is vague and indefinite "since the preamble of independent claim 1 recites performing less than one multiplier accumulator (MAC) operation within a MCK cycle". (emphasis in original) Claims 6 and 13 are dependent claims that recite the situation where the number of MAC operations within each MCK cycle is the same. Claims 7 and 14 recite the instance where the number of MAC operations within each MCK cycle is different.

It is respectfully submitted that the word "number" can and does accurately reflect that in the event of performing less than one multiplier accumulator operation within a MCK cycle, the number of MAC operations would thus be a fractional number. Since a number can also include fractions, the claim language is not vague nor indefinite.

Reference is made to figure 10 and its accompanying description which describe an embodiment where less than one MAC operation per MCK cycle is performed, (for example, one MAC operation per every four MCK cycles). Thus, it is respectfully submitted that the fact that the "number" reflected in claims 6, 7, 13 and 14 can be a fractional number is adequately supported and described in the specification. Reference is made specifically to page 16, lines 7-20 for supporting the claimed subject matter of the number of MAC operations within each MCK cycle being either the same, or different, as recited in the respective claims 6, 7, 13 and 14.

In light of the above, it is respectfully submitted that the claims are neither vague, indefinite, nor unsupported, and as such are in condition for allowance. Early notification of the same is requested.

The Commissioner is hereby authorized to charge any additional fees which may be required for this response, or credit any overpayment, to Deposit Account No. 50-1561.

In the event that an extension of time is required, or which may be required, the Commissioner is requested to grant a petition for that extension of time which is required to make this response timely and is hereby authorized to charge any fee for such an extension of time or credit any overpayment for an extension of time to Deposit Account No. 50-1561.

Date: January 10, 2006

Respectfully submitted,
Greenberg Traurig, LLP

By:
